

**SOUTHERN ACIDS INDUSTRIES SDN. BHD.**  
(207048-P)

**Sustainable Palm Oil Policy**

Southern Acids Industries Sdn. Bhd. (SAI) is an oleo-chemical manufacturer engaged in production of fatty acids and glycerine.

We are both MSPO and RSPO certified producer of sustainable palm oil products. We are committed to drive the uptake of sustainable palm oil products and supply market demand for sustainable palm oil products through market base mechanisms.

We are also committed towards sustainable sourcing (Refer to Sustainable Procurement Policy), promoting and encouraging the use of sustainable palm oil products.

New technology and information will be utilised in our processes from sourcing, manufacturing and supplying of sustainable palm oil products.

As part of supply chain of palm oil products, we will continue to improve and play an active role in supporting the transformation of the palm oil supply chain to fully sustainable.
